

Belmont Park

ACCESSIBILITY INFORMATION

Access information for our Guests with a disability and/or Guests in wheelchairs.

WELCOME!

Welcome to Belmont Park. Over the years, we have made and continue to make modifications designed to provide greater access for all Guests.

We invite comments and suggestions you might have regarding improving our park and improving access to our facilities. We also welcome any comments you might have about your personal experience at our park.

GUIDE, SIGNAL AND SERVICE ANIMALS

Guide animals assist individuals who are visually impaired with mobility, signal animals assist the deaf and hearing impaired with sound awareness, and service animals assist persons with a disability.

The term “service animal” means an individually trained dog or (with certain limitations) a trained miniature horse to do work and perform tasks for the benefit of a person with a disability, including (but not limited to), guiding individuals with impaired vision, alerting individuals with impaired hearing to intruders or sounds, providing minimal protection or rescue work, pulling a wheelchair, or fetching dropped items.

California Civil Code, Sections 54.1 and 54.2, grant people accompanied by guide, signal and service animals full and equal access to all public facilities including restaurants, hotels, shopping centers and amusement parks.

Due to motion, safety restraint system requirements, or special effects, guide, signal, and service animals are not permitted on the following:

- Any ride
- Laser Tag
- The Vault: Lazer Maze

The Manager on Duty has the authority to approve or deny access to individual animals.

Approved animals must remain on a leash or harness at all times.

Relief areas for service animals are located in the open lawn areas at the south end of the park. Please clean up after your service animal.

Service animals shall remain under the owner’s control at all times. Belmont employees are not permitted to take control of, or attend to service animals.

PARKING

Parking is provided for vehicles displaying a Disabled Person Parking placard or license plate. These parking spaces are along the front row of the North Parking Lot (by the exit to the Giant Dipper), as well as in the East and South Parking Lots.

RESTROOMS

Wheelchair accessible restrooms are located along Carousel way.

STORES AND RESTAURANTS

If you are a Guest with a special need please ask for assistance from an Employee in our stores and restaurants. Our staff will be happy to provide assistance, such as reading menus, taking orders or browsing merchandise.

SPECIAL NEEDS

If you have further questions, or require more specific accommodation during your visit, please ask an employee to contact the Manager on Duty.

We hope you enjoy your visit to our park.

RIDE SAFETY REQUIREMENTS

Guests may ride our rides by complying with the following general policy rules.

All Guests must be able to sit or stand straight with back to the backrest and the Restraint System engaged as designed.

No Guest may compromise the safety or welfare of other Guests or Employees.

All Guests must be able to evacuate themselves using catwalks, ladders and/or stairs.

All Guests are responsible for getting themselves on and off rides. Ride Operators are not allowed to physically assist Guests onto rides.

Ride Safety Requirements are posted on each ride's Fun and Safety Sign at the entrance to the ride. All Guests must conform to these safety requirements. Ride Operators enforce the height requirements and other rules posted on these signs.

Most rides have restraint systems designed to accommodate an "average" person; therefore it may not be possible to properly seat or restrain extremely large or small Guests, or those with casts or braces.

- Height restrictions may not be changed or waived under any conditions.
- We will only restrict access if we feel safety may be compromised.

BEFORE YOU RIDE

Please read the Fun and Safety Sign located at the entrance of each ride.

Watch each ride through its loading, running, and unloading cycle to understand the ride's operation.

- This procedure gives you a better understanding to make an informed decision when choosing which rides to visit.

If you have questions regarding our Ride Safety Requirements, our Ride Operators are always available to answer questions and provide assistance quickly and safely.

You may also ask for the Manager On Duty, who can explain the conditions and dynamics of each ride based on your individual needs.

- The Manager On Duty has final authority on all ride access issues.

RIDE AND ATTRACTION ACCESSIBILITY

Guests with a disability should, in most cases, access rides through the entrance.

If you have a disability that prevents you or your companion from waiting in the entrance line, please visit the Roller Coaster Museum and ask for the Manager on Duty. Please note that there will still be a waiting period before boarding and waiting times will vary depending on the ride and the individual accommodation required.

ACCESS FOR GUESTS IN WHEELCHAIRS

Access at Side Entrance:

Giant Dipper Roller Coaster

Use the wheelchair ramp located on the left side of the Roller Coaster Museum. Go around the Liberty Carousel and you will see a side entrance to the left of the main entrance of the Roller Coaster. Please use wheelchair lift and wait at top gate until ride operator gives access to ride platform. If you are with a group, have additional members wait in the main entrance line. Inform the ride operator of the situation and they will do their best to reunite the group at the correct time.

Access at Entrance:

Laser Tag Arena, The Vault Lazer Maze

Please see attraction attendant for assistance

Access at Exit:

Vertical Plunge, Liberty Carousel, Thunder Boats, Crazy Kars, Beach Blaster, Speedway Bumper Cars, Octotron, Control Freak

Due to the nature of the following rides accessibility may be difficult:

Tilt-A-Whirl, Crazy Submarine

Wheelchair access is difficult via the ride's entrance or exit. Guest's must negotiate 2-3 stairs to enter and 2-3 stairs to exit

Discuss transfer options for all rides with the Manager on Duty, who can be contacted in the Roller Coaster Museum.

Our Ride Operators are always happy to take a few extra minutes to ensure that you and your party are quickly and safely helped.
